

Overview of Science

Term	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Aut 1	Biology Features of animals What do animals eat? *Seasons (ongoing)	Biology Dead or alive? Humans – benefits of diet and exercise	Physics Light	Physics States of matter	Physics Space	Biology Evolution
Aut 2	Biology Humans and their bodies/senses	Biology Animals – basic needs	Physics Shadows	Physics Sounds	Chemistry Properties and changes in materials	Biology The Circulatory System
Spring 1	Biology Animals and their young	Biology Animals – food chains	Physics Forces	Physics Electricity	Chemistry Properties and changes in materials	Physics Light
Spring 2	Chemistry Objects or materials? *Seasons (ongoing)	Biology Plants	Physics / Geology Rocks and Fossils	Biology Digestive system Teeth	Physics Forces	Physics Electricity
Summer 1	Biology Plants Practical Planting in the allotment *Seasons (ongoing)	Chemistry Materials	Biology Plants	Biology Habitats	Biology Plants	Biology Plants
Summer 2	Chemistry Materials	Biology Humans	Biology Animals including humans	Biology Environmental changes on habitats	Biology Lifecycles Animals including humans	Biology Humans effects of diet, exercise, drugs and lifestyle
