

Year 1 Plant Trees

As part of the Green Tree School Award, the Year 1 children have each planted a tree in our school grounds. We waited until we had a lovely bright and dry spring afternoon and then we set off out, armed with spades, stakes, tree protectors and of course our trees.

In a few years, we hope our trees will have grown into a lovely hedge, which will protect us from the wind when we are on the playground. We are also sure that it will become a home for minibeasts and birds. We have a great time digging and planting.
