

Getting out and about in our local area.

When we eventually got a break in the weather, we had a super time visiting Wendy and the rest of the staff and our local Lascelles Park Community Café. It was very important that we looked where we were going because when we got to the café, we had to draw a map of our journey. We needed to remember we'd gone out the gate, across the road, past the playground, along the path, past the building site and up the ramp! Then, we had to make sure we drew our journey correctly on our map.

We had all counted out 20p and we felt very grown up queuing at the counter to buy our juice and biscuit. We had a great time and will definitely visit again.
