

Keep the Loco in Darlo!

Year 6 have been involved in the very important campaign to keep George Stephenson's Locomotion 1 at the Head of Steam museum in Darlington.

Our display shows the letters we wrote to the Science Museum, asking them to reconsider; newspaper cuttings from our article in the Northern Echo and photos of our trip to learn about Darlington's importance in the development of the railways.

We hope we have made a difference – Locomotion 1 is part of our heritage and it belongs in our town.
